Marking & Feedback Sheet – Assignment 2 – Group Mark

Group	XX Group GN
-------	-------------

Tick (✓) the prompts and use these in deciding a mark (a percentage range, e.g., 60-69) for each category.

bad fail (0-30)
fail (30-39)
3rd (40-49)
2ii (50-59)
2i (60-69)
1st (70-85)
good 1st (85-100)

Implementation & Documentation & Demo (60%)									
Code does not compile								Code compiles with no errors or warnings, compilation instructions are clear (3)	Impl & Doc & Demo: XX / 60
Feature functionality very low quality								Feature implantation of exceedingly high standard (17)	
No features implemented								All features implemented (10)	
Coding conventions never respected								Perfect coding style and comments (10)	
Documentation not completed								Flawless documentation (10)	
No video demonstration								Video demo exceeds expectations (10)	
What went well: xxx									
How to improve: xxx									
Minutes (5%)									
No minutes submitted								Minutes submitted and in correct format (1)	Minutes: XX / 5
Minutes need more detail								Perfect level of detail for minutes (4)	
What went well: xxx									
How to improve: xxx									
Report Format & Contributions (5%)									
Not in correct format, e.g., GroupNmemberContributions.pdf								Correct format, e.g., GroupNmemberContributions.pdf (1)	Rep Form & Cont: XX / 5
Contributions for each member unclear								Contributions of each member clearly identified (4)	
Overall									
General comments (e.g., weak/strong points): xxx									
Overall mark (should be a combination of marks above; explain your combination if different from the recommendation): The overall mark has been calculate using the above weightings. Note: This mark does not include the individual viva component mark (30%). The individual viva mark must be added on to this overall group mark to obtain a final (individual) mark for A3.									Overall Group Mark: XX / 70
